IRAN LAUNCHES 22ND WAVE WITH NEW GENERATION MISSILES

The Democratic News
Tehran, Mar,06

The Islamic Revolution Guards Corps (IRGC) has launched the 22nd wave of Operation True Promise 4 with a barrage of Khorramshahr 4, Khaibar and Fattah missiles targeting the "heart of the occupied territories," with a senior official revealing that Iran has so far used mostly decade-old missiles and is preparing new advanced weapons for a prolonged war.

The IRGC's Public Relations department said the operation began Friday afternoon under the code name "Ya Hossein ibn Ali (AS),"

according to Tasnim news agency.

This wave targeted American and Zionist regime positions from the Persian Gulf to Tel Aviv with the launch of Khaibar, Khorramshahr-4, and Fattah missiles, in retaliation for the child-killing perpetrators who murdered Iran's children at the Minal school, said the statement.

It added that one of the launched missiles was ultra-heavy "Khorramshahr-4" missile, carrying a 2-ton warhead and traveling at a speed exceeding Mach 14, which has been directed at the targets of the wicked enemies of the Iranian nation.

American and Zionist re-

gime bases in the Persian Gulf countries, Tel Aviv, Ben Gurion Airport, and military centers in Haifa were struck by new-generation missiles, it added.

"The complete success in launching these missiles from the sustained chain of IRGC missile bases on the seventh day of the war nullified the absurd claim by the propaganda machine of the global arrogance about the weakening of defense capabilities and the reduced rate of missile and drone launches," it added.

A senior IRGC official told Fars news agency that missiles used over the past seven days were predomi-
